LinkedIn: [linkedin.com/in/ab-webdev](https://www.linkedin.com/in/ab-webdev) | GitHub: github.com/abrar12678 | Portfolio: my-portfolio-website-liart-alpha-30.vercel.app

CAREER OBJECTIVE

Self-motivated and passionate MERN Stack Developer with a strong foundation in modern web technologies, actively building full-stack applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Committed to crafting scalable, responsive, and user-friendly web solutions that deliver real-world impact. Continuously expanding technical expertise through hands-on project development, self-directed learning, and collaborative problem-solving. Eager to contribute to dynamic development teams and grow as a professional software developer in internship, freelance, or junior full-stack roles.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), React.js, Next.js

Backend: Node.js, Express.js

Database: MongoDB

Tools & Platforms: Git, GitHub

SOFT SKILLS

Communication | Teamwork | Problem Solving

PROJECTS

DriveFleet

- Developed a responsive, modern UI delivering seamless user experience across all devices
- Implemented JWT-based authentication system ensuring secure user access and session management
- Built a dynamic vehicle booking system with real-time availability tracking and booking confirmation
- Integrated MongoDB database for managing ride data, user profiles, and booking records efficiently

Technologies: Next.js, JWT, MongoDB

Live: drivefleet-one.vercel.app | GitHub: github.com/abrar12678/drivefleet-client

QurBaniHut

- Engineered a secure authentication system for user registration, login, and profile management
- Designed a fully responsive layout optimized for mobile, tablet, and desktop viewing
- Developed dynamic product listing with filtering and search capabilities for efficient browsing
- Delivered a smooth, intuitive user experience with streamlined booking flow and minimal friction

Technologies: Next.js, Authentication
